Kolkata, West Bengal - 700030, India

ACADEMIC EXPERIENCE

- **Indraprastha Institute of Information Technology Delhi**  5th May, 2025 - 4th July, 2025
Research Intern in the Microbiome Informatics Lab of Computational Biology Department New Delhi, Delhi, India
 - Developed a predictive framework leveraging large language models (LLMs) to model disease-specific patterns in human microbiome metadata.
- **Indian Institute of Technology Guwahati**  2nd January, 2024 - 20th December, 2024
Former Research Assistant in the MARS Lab of Computer Science & Engineering Department Guwahati, Assam, India
 - Worked for Teaching Assistant of the course **"Introduction to Computing" (CS 101)**, Course Instructors: Prof. T. Venkatesh & Dr. John Jose, from January, 2024 - May, 2024.
 - Worked for Teaching Assistant of the course **"Digital Design & Computer Architecture" (CS 322M)**, Course Instructor: Prof. Jatindra Kumar Deka, from July, 2024 - November, 2024.
 - [Experience Certificate](#)
- **Indian Institute of Science Education and Research Bhopal**  22nd July, 2023 - 31st December, 2023
Former JRF in the Electrical Engineering and Computer Science Department Bhopal, Madhya Pradesh, India
 - Worked for Teaching Assistant Position for the course **Discrete Mathematics (ECS 201)**, Course Instructor: Dr. Kundan Kandhway.

PATENTS AND PUBLICATIONS

C=Conference, J=Journal, P=Patent, S=In Submission, T=Thesis

- [J.1] **Debarshi Roy**, Soumita Banerjee, Alisha Ansari, Sourav Goswami, Nidhi P. Raval, Kaustav Adhikary, and Tarini Shankar Ghosh (2026). [Artificial Intelligence \(AI\) in microbiome-directed biotherapeutics development](#). *Progress in Molecular Biology and Translational Science*, Elsevier Inc. DOI: [10.1016/bs.pmbts.2026.01.005](https://doi.org/10.1016/bs.pmbts.2026.01.005)
- [J.2] **Debarshi Roy**, Nidhi P. Raval, Vindhya Regonda, Omprakash Shete, Kaustav Adhikary, Deepak Kandhal, Shivangi Verma, and Tarini Shankar Ghosh (2026). **Overlapping signatures of gut microbiome in aging and disease: Enrichment of medication-associated oral-microbiome-predominant microbes in the gut**. Submitted to *FEBS Letters* and currently under revision.
- [S.2] **Debarshi Roy** and Tarini Shankar Ghosh (2026). **Scalable Microbiome Network Inference: Mitigating Sparsity and Computational Bottlenecks in Random Effects Models**. *bioRxiv Preprint*. DOI: [10.64898/2026.03.27.714858](https://doi.org/10.64898/2026.03.27.714858).

PROJECTS

- **Project A: METAQR: Image-Based Analysis in Microbiome** at IIIT Delhi
Tools: [Python, Flet, HTML/JS, Git]
 - Engineered a scalable clinical diagnostic tool that ultra-compresses massive metagenomic profiles (15 GB) into lightweight, byte-sized patient signatures.
 - Developed and deployed a serverless, cross-platform application (Web, iOS, Android) utilising dynamic QR codes for instantaneous point-of-care visualisation of gut ecology.
 - Processed over 70,000 patient samples to construct a highly optimised, low-memory clinical database, resulting in a formal patent filing for the system architecture.
- **Project B: NEMESIS: Telemetry-Driven Distributed LLM Scheduler** at IIIT Delhi
Tools: [Python, Kubernetes, PyTorch DDP, Docker, Linux tc, Bash]
 - Engineered a custom, multi-objective Kubernetes scheduler that intercepts default container placement to dynamically route LLM workloads, reducing execution time by 62% under severe CPU chaos.
 - Implemented a topology-aware gang-scheduling algorithm that maps cluster latency matrices to mathematically protect PyTorch Distributed Data Parallel (DDP) synchronisation rings across data-centre racks.
 - Integrated real-time NVIDIA NVML telemetry to bypass bare-metal GPU VRAM fragmentation, cutting compute times by over 40% and isolating network bottlenecks via deterministic latency sweeps.

- **Project C: Machine Learning-based Age Prediction Model in gut microbial ageing-trajectories** *at IIIT Delhi*
Tools: [R, Python]
 - Developing machine learning frameworks (Random Forest, XGBoost) to predict physiological age using gut microbiome data across multiple age cohorts (20-40, 41-80, 60-80).
 - Analysing longitudinal aging trajectories to identify key microbial biomarkers, with Random Forest achieving the highest predictive accuracy for the 20-40 age demographic.
 - Performing rigorous data filtering and correlation analysis to map microbial abundance changes to healthy aging patterns.
- **Project D: Disease-Oriented Analysis of Human Microbiome Metadata: Toward LLM-Based Predictive Models** *at IIIT Delhi*
Tools: [R, Python, Pandas, NumPy, Seaborn, Matplotlib, SciPy]
 - Designing a predictive framework that harnesses Large Language Models (LLMs) to interpret unstructured patterns in human microbiome metadata associated with various diseases.
 - Utilizing Pandas and SciPy for the statistical processing and dimensionality reduction of complex biological datasets to ensure high-quality model inputs.
 - Creating visualization pipelines (Seaborn, Matplotlib) to uncover latent relationships between metadata features and disease states.
- **Project E: A Survey Towards Secure, Adaptive, and Scalable Prefetching** *in Association with IIT Guwahati*
Tools: []
 - Prepared a survey report on various Prefetching Mechanisms in the context of Cache Prefetching, Hybrid Software-Hardware Prefetching and Operating Systems Prefetching w.r.t I/O Devices.
 - [Project Report](#)

EDUCATION

- **Indraprastha Institute of Information Technology Delhi** *July, 2025 - July, 2027*
Master of Technology in Computational Biology *New Delhi, Delhi, India*
- **Maulana Abul Kalam Azad University of Technology** *June, 2019 - June, 2023*
Bachelor of Technology in Computer Science & Engineering *Kolkata, West Bengal, India*
 - CGPA: 8.80/10.00
 - [Marksheets & Degree Certificate](#)
- **Chakdaha Ramlal Academy** *June, 2018*
Higher Secondary Education (Class 12) *Chakdaha, West Bengal, India*
 - Marks (Percentage): 76%
 - [Marksheet & Certificate](#)
- **Gangnapur High (H.S.) School** *May, 2016*
Secondary Education (Class 10) *Ranaghat, West Bengal, India*
 - Marks (Percentage): 90.57%
 - [Marksheet & Certificate](#)

ACHIEVEMENTS

- **GATE CS/IT 2023 Qualified** *Scorecard Validity: till 31st March, 2026*
Organized by IIT Kanpur
 - During my GATE CS/IT preparation, I studied all core Computer Science subjects according to the GATE CS/IT syllabus.
 - [GATE CS/IT Scorecard of 2023](#)

SKILLS

- **Programming Languages:** Python, R, C, C++
- **Specialized Area:** Computational Metagenomics, Computational Genomics, Biological Data Analysis, BioStatistics, High-Performance Computing, Operating Systems, Computer Networks, Computer Organization & Architecture, DBMS
- **Other Tools & Technologies:** R & R Studio, Git & GitHub, gem5, Wireshark, Pandas, NumPy, Seaborn, Matplotlib, SciPy
- **Research Skills:** LaTeX, PowerPoint, Excell, Word

ACADEMIC SERVICE

- Volunteer, IEEE ANTS & AIORI Conference, IIT Guwahati (Dec 2024)
- Volunteer, IIT Guwahati Campus Immersion Program (June–July 2024)
- Volunteer, Pedagogy Training Workshop, IIT Guwahati (March 2024)

ADDITIONAL INFORMATION

Languages:

- English (Professional working proficiency)
- German (Professional working proficiency)
- Hindi (Limited working proficiency)
- Bengali (Native or bilingual proficiency)

Hobbies: Cricket, Chess, Swimming, Drama
